It is unacceptable for the Hong Kong Police Force to require the arrest of all on-campus protestors in a bid to deescalate the violence. This is not how a free and fair government acts – it is how a police state operates. #FreeHongKong

Hong Kong's authorities have turned a place of higher learning into a place of violence by trapping student demonstrators on their own campus.

In #HongKong, government police continue their assault on universities into the night, making mass arrests and now threatening live fire against largely defenseless students. Beijing is pushing Hong Kong into a state of siege. #StandWithHongKong

Reports indicate that leftists are joining pro-Hamas protests. Their goal is to spread disorder and violence on campuses to advance their liberal agenda.

These are not peaceful protesters.

They are terrorist sympathizers colleges and universities should not negotiate with.

If the campus police can't do it, the schools should bring in local police.

If the local police can't do it, then yes—the National Guard should restore law & order.

Allowing deeply troubled antisemites to take over campuses and threaten Jewish students is unacceptable.
